Author Comments: This includes everything that is currently done up until Friday, December 1st, 2017 at 11:21am. There are still two weeks left to put onto the hours timesheet and the student supervision form. Those will be completed when they occur, unless you want me to "predict" the numbers and send everything now.

The program creator added the following instructions to help guide your evaluation:
Field Educators will need to rate students on each of the 9 competencies. It would be great if Field Educators could see all of the component behaviors associated with each competency, and be reminded, "In evaluating student performance in field, please take into account student's overall performance including: 1) attainment of each competency and associated component behaviors; 2) performance on learning contract activities; and, 3) submission of time sheets, supervision record forms and other documentation. Please note that there is a new required student comments / self-reflection section which also must be evaluated."
Evaluate all 9 competencies
Evaluate work using the "Learning Objectives Fnd"
Print Rubric
Show Criteria Descriptions
1. Demonstrate ethical and professional behaviors: a. Make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context. b. Articulate the
4 Advanced Competence (AC)
Expertly demonstrates awareness, knowledge and skills as a graduate social work intern. Some students may perform at above the acceptable level of performance, displaying creativity, flexibility, and imaginativeness reflecting a potential to perform at a superior level. A rating of AC is likely to occur infrequently, and as such should be accompanied by a strong rationale for the rating by the Field Educator.
3 Competence (C)
Consistently demonstrates awareness, knowledge and skills as a graduate social work intern. A student should attain a rating of C on a majority of the 6 program competencies/objectives by the end of the field course in order to receive a grade of S (or Satisfactory). A rating of C indicates that the student is able to consistently perform the set of practice behaviors associated with a given competency satisfactorily.
2 Emerging Competence (EC)
Emerging Competence - Demonstrates beginning awareness, knowledge and skills as a graduate social work intern. While there may be periods of unevenness (with some limited degree of regression or immobilization, mainly at points of stress or pressure), the student gives evidence of both the motivation and capacity to perform satisfactorily the set of practice behaviors associated with a given competency. Ratings of EC in a majority of competencies at the end of placement
1 Insufficient Progress (IP)
Rarely demonstrates awareness, knowledge and skills as a graduate social work intern.
0 Unacceptable Progress (UP)
Never demonstrates awareness, knowledge and skills as a graduate social work intern
