

Ways to Avoid Compassion Fatigue

I can:

1. Have a manageable patient load, know and set boundaries and limits.
2. Use as many “others” as possible in my work with patients, work as a team.
3. Take a “Mental Health Day” when needed.
4. Laugh, joke, have time to unwind.
5. Have a holistic approach to taking of care myself – mind, body, feelings, spirituality. Let go, do not allow stress or take on others’ stress, reduce anxiety, recognize choices.
6. Have an understanding supervisor.
7. Have supervision with supervisor and peers.
8. Get and give feedback with supervisor and peers.
9. Read materials and go to workshops and training seminars related to compassion fatigue.
10. Be assertive with feelings and concerns.
11. Let people know my limits.
12. Process, talk things out. Talk to a healthcare professional if needed.
13. Have a safe work environment.
14. Stay organized.
