C. Ongoing and Completed Research Support:

R01 AA014442 Robinson (PI) 6/04-5/09

Long-Term Spiritual Changes in Recovery from Alcoholism.

The research goals of this project are to document long-term changes in the spirituality and religiousness of treated alcoholics from 3 treatment sites and untreated alcoholics recruited from the community. The relationship of those changes to alcohol use, AA involvement, severity of dependence, psychiatric symptoms, social support, sleep quality, and demographics are being investigated. Data collection is concluded & analysis has begun.
